In the above map the block lines and their numbers show the original block and lot lines and are to be retained. The RED LINES and RED NUMBERS indicate proposed subdivisions when said subdivisions do not conform to the original lot lines. The RED LINES and RED NUMBERS on this block is considered a final and correct subdivision and is to be used and followed in all cases.

Subdivision of these blocks shown on this plat, may be made in the regular way, and the amount here entered on said plat, or in recorded orders, and there filed to add.
